

Thematic Research Training 2018-2019

Bioscience for Health (BfH) group

“Leptin: From Molecules to People”

St Andrews, Bute Building (inside St Mary’s Quad, South Street)

Wednesday, 5 December 2018

Venue: C28

Timetable for the day:

10:30 - 11:00	Welcome Coffee
11:00 - 12:30	“Why does your research matter?” student presentations (6-8 minutes).
12:30 – 13:30	Lunch - seating area by Bell Pettigrew Museum
13:30 – 14:00	Dr Gayle Doherty: “Neuroprotection by leptin“
14:00 – 14:30	Dr Jenni Harvey: “Leptin regulation of hippocampal synaptic function: implications for health and CNS disease“
14:30 – 15:00	Dr James Ainge: “Assessing leptin as a cognitive enhancer in rodents“
15:00 – 15:30	Dr Maggie Ellis: “Adaptive Interaction for advanced dementia: the behavioural and physiological impacts“

*All first-year PhD students: please prepare a couple of slides about your research (6-8 minutes) and send your presentation to va26@st-andrews.ac.uk by Sunday, 2nd December. I will make sure everything is ready when you arrive.

Please get in touch if you have any queries.

Veronika Ambrozova
